Details matter to our builders. Look closely at each piece and you'll see touches like dovetail accents, mortise and tenon joints, and quality hardwood on every surface—even those typically hidden from view. Finishing is an essential component of heirloom-quality furniture, and our craftsmen carefully finish each piece to draw out the natural beauty of the wood while creating a durable surface that will last for generations.

RIVER WOODWORKING LLC

The next generation of design

As a second-generation craftsman, Paul Yoder and his wife Ida founded River Woodworking in 2000. Having learned the art of building roll-top desks from his father, Paul continued the family tradition and expanded into a full line of furniture and cabinetry. Now Aaron, Paul's son, is taking over the helm and looks forward to continuing the family legacy. With his father's guidance, Aaron and his team will continue to make heirloom-quality furniture that, like their business, is worthy of being passed from one generation to the next.

Fine home or office cabinetry and solid hardwood desks built to exacting standards for enduring use.
