To all Furniture Stores,

We are planning to be compliant with the Sturdy Act requirements. We will use the Rear-mount drawer lock system and use weights only where needed. Wall-mount Tip - Restainers will also be provided.

All orders from this point forward will be compliant. There will be a \$5 per drawer up-charge as well

We will keep you informed about any changes.

In the future we may likely make changes regarding the drawer-lock system. One option may be a 7/8 extension BLUM undermount drawer slide, to allow for the elimination of the drawer lock system.

We welcome customer feedback and suggestions on how we can continuously improve in this endeavor.

Thank-you Sincerely, Cloverleaf Woodworking
