Hilltop Hickory Furniture Sturdy Act Compliance Plan;

All Hilltop Hickory Clothing storage furniture built after September 1, 2023 will be sturdy act compliant. All bark hickory pieces or SKU's starting with #1600's and #5600's will have 3/4 extension drawer slides plus rubber counter weights.

All Rough Cut furniture or #6000's will have 3/4 extension drawer slides plus the interlock system. The R/C Cumberland dresser and chest depth will change, otherwise dimensions will stay mostly the same.

Thank you for your patience and support as we figure out our compliance plan. Any questions or concerns feel free to give us a call or email.
