We, Michael & Elaine  
Lehman, started Orchard  
Drive Fabrication in 2005 as  
a part-time business. Then in  
the spring of 2012, we began  
production full-time and  
currently have three full-time  
and two part-time employees.  
We are focused on top  
quality and short lead times.  
We look forward to working  
with you to build you the  
playset of your dreams.  
To order, choose one of  
the playsets in the catalog or  
follow the easy steps in the  
back of the catalog to build  
your own custom playset.
