

# PATCHWORK DESIGNS

HAND PAINTED  
BARN QUILTS

## ABOUT US

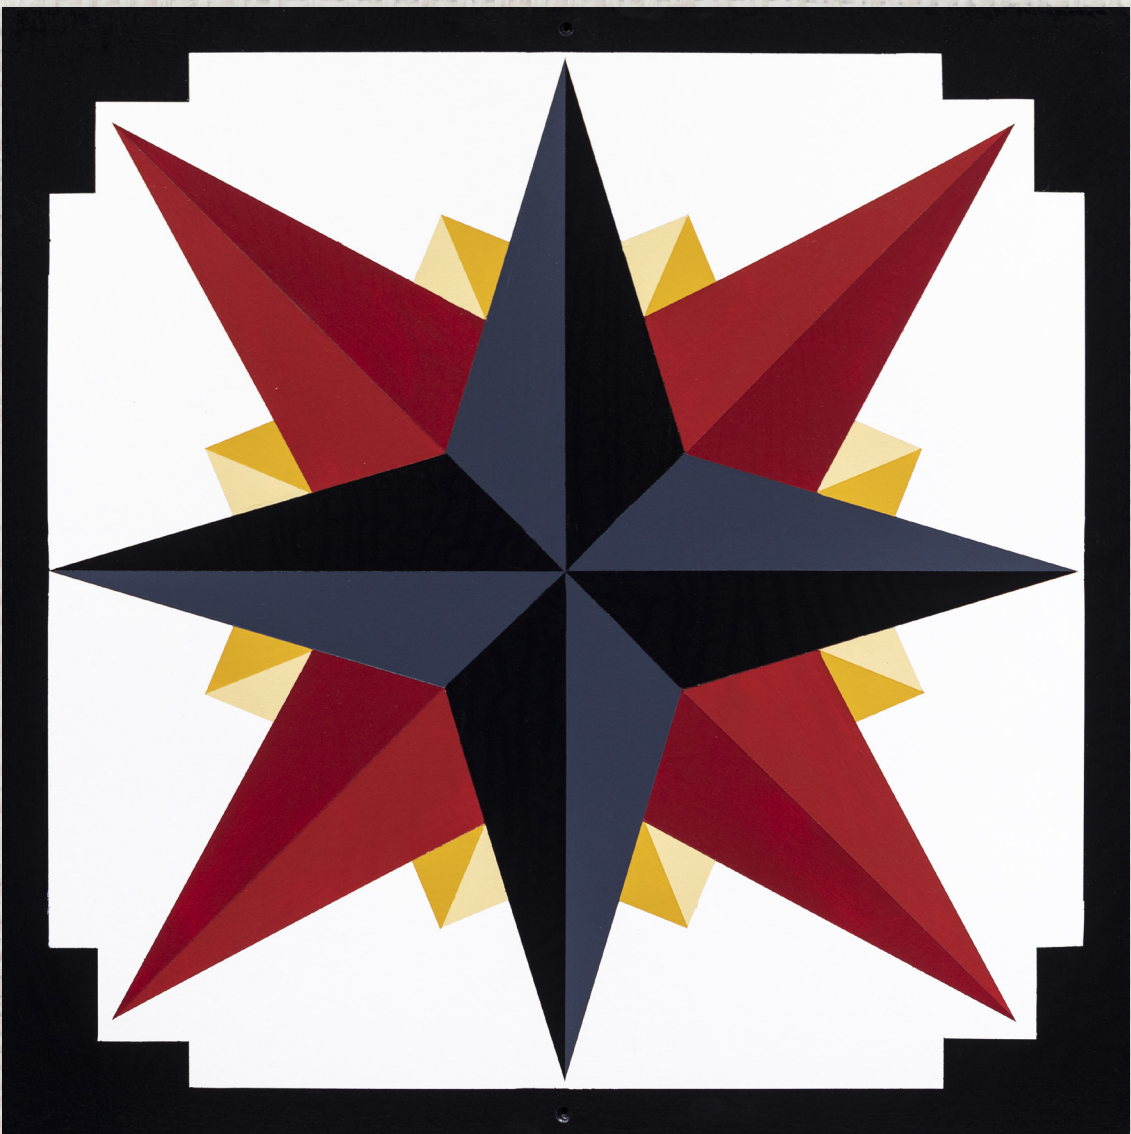

Patchwork Designs is located in the heart of picturesque northern Indiana Amish country. After getting his start in residential painting in 2006, Gary & Mary Hershberger acquired the business in 2018. Gary saw Patchwork Designs as a great way to work with people looking for a specific piece of outdoor artwork for their buildings. As a small, Amish family run business, they pay close attention to the details. This, along with their eye for design, gives their barn quilts the beauty, quality, and endurance that lasts for years to come.

- All barn quilts are hand painted.
- Painted with semi-gloss exterior paint on exterior grade MDO plywood.
- Holes are pre-drilled with a countersink bit for ease of mounting.
- At this time, custom orders are not accepted (including switching colors within patterns or from one pattern to another).
- Wholesale orders only.
- Drop shipping is available. Shipping and handling rates apply.
- Due to current shipping guidelines, the 4' x 4' size is oversized and requires a substantial upcharge to ship.
