OUR STURDY ACT COMPLIANCE PLAN

After several months of testing out various methods we have decided on our solution:

We will shorten the extension of our 18" drawers by 3 ½" and add some counter-weight to the back/bottom of our units.

We will **NOT** change any drawer box sizes.

This will be called a full-access drawer, as you can still use the whole drawer. You will also be able to open all drawers at any time.

This is a simple and cost-effective way to make our product compliant, yet also keep changes to our designs minimal.

Each unit will be tested according to the new ASTM F2057-23 testing standard and will be fully compliant before being shipped.

We will not have a price increase or upcharge at this time. In 2024 we will reassess and determine if any changes are necessary.

If you have any further questions please reach out and we'll be glad to answer them for you.

We greatly appreciate your business and look forward to working with you in the future!

The logo for Schwartz Woodworking LLC features a stylized, cursive 'W' and 'S' that overlap. To the right of the 'S', the word 'Schwartz' is written in a serif font, and 'Woodworking' is written in a similar serif font below it. Underneath 'Woodworking', the letters 'LLC' are written in a smaller, sans-serif font.
