2026 FIREPLACE CATALOG

About Us

Signature Designs was founded in 2015 after 11 years spent in the woodworking industry. Since day one, we have focused on building fine custom kitchen cabinets. In 2020, we took on a line of fireplaces from another local company who was no longer interested in building them. With years of experience building fine cabinets and furniture, we work to create a high quality piece of furniture that will last you for many years.
