

# Our Handcrafted Difference

## SOLID TOP CRAFTSMANSHIP

Built with an interlocking glue joint, steel in-lay stabilizer support bars and available in 1.5" and 1.75" solid tops, our tables are designed for strength, beauty, and longevity.

*Display samples are available for your showroom.*

## BUILT IN-HOUSE

Because we manufacture every tabletop in our own shop, we maintain rigorous quality control. This in-house production also allows us to offer custom sizes, faster turnaround times, and *reliable Quick-Ship options*.

## EFFORTLESS EXTENSION SLIDES

Our geared table slide features a *larger gear* design for *smooth operation* – no need for a person at each end to pull the table apart.

## AUTHENTIC LIVE EDGE HERITAGE

All live edge slabs are cut at our sawmill and kiln dried on site, *preserving the natural character* of each piece while *ensuring lasting stability*.

## VISIT US ANYTIME!

If you are ever in the area, you are *always welcome* to stop by and see how our furniture is made. We believe the *best relationships* are built face to face.

*We look forward to serving you*

YOUR BUSINESS IS  
TRULY APPRECIATED!
